

## IMPORTANT SAFETY RECALL

NHTSA Recall No. 18C001

Dear Harmony Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Harmony Juvenile Products (Harmony) is writing to advise you that under certain circumstances, the Big Boost Deluxe with Latch Positioning (Big Boost) may not comply with Federal Motor Vehicle Safety Standard No. 213, and a remedy will be provided under the terms listed below.

### **PRODUCT IDENTIFICATION:**

This notice relates only to the following product:

Brand: Harmony  
Model: Big Boost Deluxe With Latch booster seat  
Model No.: 0304017CBK  
Manufacture Dates: November 1, 2015 through June 24, 2017

### **THE ISSUE:**

Since being introduced in the United States, Canadian, and European markets, there have been no reported incidents or injuries to any child relating to the Big Boost. However, a recent test conducted by a third-party laboratory on behalf of NHTSA found that when the seatbelt is anchored forward of the seat crease and does not wrap around the base of the Big Boost, forces could be applied to the restrained child's chest in excess of regulatory limits in the event of a collision. Harmony has decided to recall the Big Boost under the terms explained in this letter.

### **THE REMEDY:**

Harmony will provide a replacement to eligible consumers, free of charge. The replacement is a booster seat of a different model. Eligible consumers are U.S. consumers who currently own a Big Boost unit **and** are the original purchaser, original owner, and/or original user of the Big Boost unit.

### **WHAT YOU SHOULD DO:**

To obtain a replacement booster seat, consumers must take the following actions:

**THIS UNIT CANNOT BE RETURNED TO THE RETAILER.**

2. The replacement product will be directly shipped to you.
